

HELP NEEDED

Hello Boating Public-

You may be aware that the Wolf Creek Reservoir Dock has not functioned properly over the past few seasons. The guide system that allows the dock to move up and down with the fluctuating water level does not function properly which results in the dock hanging up creating a safety hazard.

I have submitted a grant for the replacement of the dock for the season of 2018. The Oregon State Marine Board (OSMB) grant program ranks applicants that have support much higher than those without.

The Union County Parks Department needs from you the boating public, a **letter of support for the project “Wolf Creek Dock Replacement”**. Letters can be in form of an email or letter sent to schambers@union-county.org or sent to Parks Department, P.O. Box 1103, La Grande, OR 97850. Letters must be received by May 15, 2017.

Your help is very much appreciated. Questions or comments, 541-963-1319.

Sean Chambers

Union County Parks Coordinator
