

**Upper Grande Ronde River Watershed Partnership
Place-Based Integrated Water Resources Planning
Water Supply Technical Committee Meeting #2
February 21, 2017
9:00 to 11:00 a.m.**

County Planning Office: 1001 4th Street (Misener Conference Room)

I. Welcome

- a. Introductions
- b. Recap of the previous meeting
 - i. Revised boundaries and points of calculation (based on BSRs) were discussed and it was agreed to move forward using these boundaries
 - ii. Time scales were discussed, and it was determined that using 10 years of data would be beneficial for minimum and maximum surface water flows
 - iii. Groundwater data was discussed. It was determined that temporal and spatial scales would need to be used based on the lack of data in the area.

II. Updates from the group

- a. Surface Water Quality - Smita
- b. Surface Water Quantity – Steve
 - i. Data sets utilized (58-87)
 - ii. Sensitivity analysis (80-2010)
- c. Groundwater Quantity - Dana
- d. Presentation of Data - Brett
- e. Other Updates

III. February 22, 2017 Stakeholder Meeting Presentation

- a. Presentation review

IV. Conclusion

- a. Action Items
- b. Next meeting date
