# RECORD OF LAND CORNER MONUMENTATION

NORTHWEST CORNER SECTION 33, T. 6 S., R. 42 E., W.M.

**ORIGINALLY ESTABLISHED BY:** William B. Barr, U.S. Deputy Surveyor

**CONTRACT NUMBER:** 443

**CONTRACT DATE:** May 29, 1882

29	28	28	27
32	33	33	34
32	33	33	34
5	4	4	3

**ORIGINAL DESCRIPTION:** Set basalt rock 16x12x10, 11 inches in ground for corner to Sec 28, 29, 32, 33 marked with 4 notches on the East and 1 notch on the South edges, from which  
 a pine 48 in diam bears S73°E 26 lks dist marked T6S R42E S33 B.T.  
 a pine 18 in diam bears S81°W 112 lks dist marked T6S R42E S32 B.T.  
 a pine 22 in diam bears N40°W 147 lks dist marked T6S R42E S29 B.T.  
 a pine 22 in diam bears N4°E 190 lks dist marked T6S R42E S28 B.T.

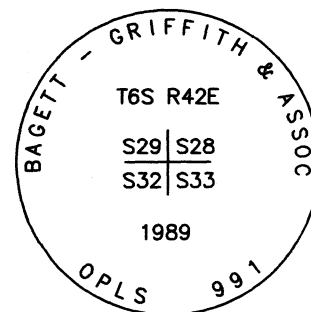

**EVIDENCE FOUND:** Found a 2½" aluminum pipe with a 2½" Bagett-Griffith and Associates aluminum cap in a mound of stone and four bearing trees established in 1989 by Greg Blackman, PLS 991. I also found the original marked corner stone, which was buried North and alongside the pipe. The stone measured 16"x12"x10" and was marked with 4 grooves on one face and 1 groove on adjacent face. I also found the remains of the original northwest bearing tree, which is a 30" diameter ponderosa pine sawn stump, 6 feet tall, containing a blaze with fragmentary scribing, located at G.L.O. record bearing and distance from the aluminum monument. Although I find no record of the 1989 remonumentation in the county surveyor's records, it is obvious that Mr. Blackman's work represents a careful and faithful perpetuation of the original corner position, and I accept it for the section corner.

**DESCRIPTION OF MONUMENTS AND ACCESSORIES SET AND METHODS USED:**

From the found aluminum monument, marked as shown below, I found the following bearing trees marked by Blackman in 1989:

- ▶ A ponderosa pine 20" dbh bears N.30°E., 24.29 ft., with healed double blaze
- ▶ A ponderosa pine 23" dbh bears S.31°E., 31.42 ft., with healed double blaze
- ▶ A ponderosa pine 18" dbh bears S.49°W., 48.30 ft., with healed double blaze
- ▶ A ponderosa pine 19" dbh bears N.73°W., 24.3 ft., with healed double blaze

CORNER MONUMENT  
MARKED:

Replaced original corner stone alongside the aluminum pipe and repaired the mound of stone. Painted a 6 inch red band around each bearing tree, and also painted blazes red and attached USFS 54-3 and 54-9 signs. Bearings to BT's measured with a magnetic compass with 14° East declination. Distances were measured with a steel tape, measuring to a spike found in the side-center-right at the root crown of each tree. Also set an aluminum guard post East, 2.5 ft., with USFS 54-2 and 54-9 signs attached.

**RESTORATION BY, STAMP AND DATE:**
