RECORD OF SURVEY

216 1/2

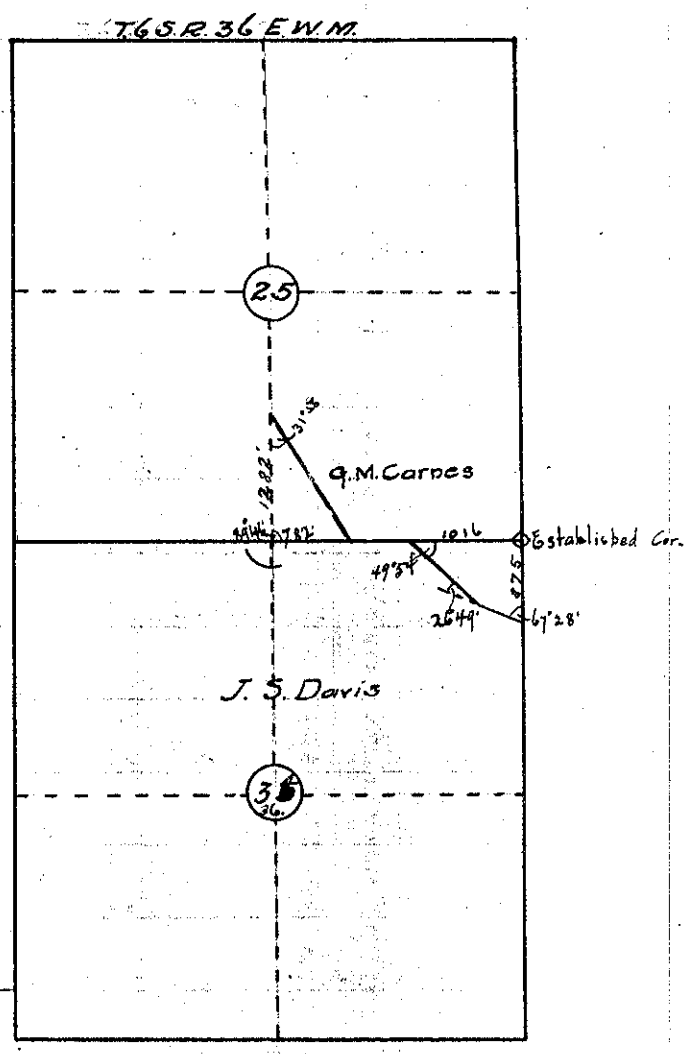
Township Six (6) South Range Thirty six (36) Union County, Oregon.

CHAINS. LKS.

Survey made April 21, 1913 for G.M. Carnes Sec. 25, T. 6. S.R. 36. E.W.M. The green line on plat ~~indicates~~ indicates the line established.

I began the survey from the S.W. Cor of S.E.¼ Sec 25 and measured the distances north and East to points: all as shown on plat. The starting corner or ¼ sec cor. is indicated by a large post at cor. of fence and being a post in position as placed by G.M. Carnes at a time when the original govt. stake was in position. This testimony by G.M. Carnes and J.S. Davis.

The intention is to remove this post in the near future as I marked a ¼ stone and left to be placed 14" below the surface at such time as the fence cor is changed.



This survey recorded April 26. 1913. By C.T. Darley C. Surveyor.
